

COMPANION PLANTING CHART

⇒ for Beginners ⇐

Simple pairings for an easy vegetable garden.

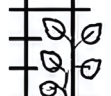

1 EASY COMPANION PAIRINGS

	Tomatoes + Basil	Basil helps improve flavor and may deter pests.
	Carrots + Onions	Onions help repel carrot pests.
	Lettuce + Radishes	Radishes grow fast and help loosen soil for lettuce.
	Cucumbers + Dill	Dill attracts beneficial insects and supports cucumber growth.
	Beans + Corn	Beans add nitrogen to the soil and corn provides support.
	Squash + Nasturtiums	Nasturtiums deter pests and attract pollinators.

2 HELPFUL HERBS & FLOWERS

	Basil	Repels flies, mosquitoes, and some beetles; boosts tomato flavor.
	Chives	Repels aphids and improves growth of many vegetables.
	Dill	Attracts beneficial insects like ladybugs and lacewings.
	Marigolds	Help repel nematodes and other garden pests.
	Nasturtiums	Deter aphids, squash bugs, and attract pollinators.
	Alyssum	Attracts beneficial insects and helps protect plants.
	Calendula	Supports soil health and attracts pollinators.

3 KEEP IN MIND

 ☐ Do not overcrowd.	 ☐ Check sunlight.	 ☐ Use supports for tall plants.	 ☐ Give vines room.	 ☐ Follow seed packet spacing.
