

COMPANION PLANTING

MASTER CHART

Year: _____ Zone: _____ Garden Size: _____ Planner: _____

PLANT		COMPANION PLANTS (Good Companions)	AVOID (Plants to Avoid)	BENEFITS	PLANT FAMILY
1	 Tomato	Basil, Carrots, Marigolds, Onions, Asparagus	Cabbage, Broccoli, Fennel, Walnut	Improves flavor, deters pests, attracts pollinators	Solanaceae (Nightshade)
2	 Pepper	Basil, Carrots, Onions, Spinach, Marigolds	Fennel, Kohlrabi, Cabbage	Enhances growth, repels aphids and beetles	Solanaceae (Nightshade)
3	 Cucumber	Beans, Dill, Nasturtiums, Radishes, Sunflowers	Potato, Sage, Aromatic Herbs	Improves growth, attracts beneficial insects	Cucurbitaceae (Cucurbit)
4	 Squash (Summer/Winter)	Corn, Nasturtiums, Beans, Radishes	Potato, Fennel, Sage	Suppresses weeds, attracts pollinators, deters pests	Cucurbitaceae (Cucurbit)
5	 Beans (Pole/Bush)	Corn, Cucumber, Radish, Strawberries, Marigolds	Onions, Garlic, Fennel	Fixes nitrogen, improves soil, supports companions	Fabaceae (Legume)
6	 Carrots	Onions, Leeks, Tomatoes, Radishes, Rosemary	Dill, Parsley, Parsnip	Deters carrot rust fly, improves flavor	Apiaceae (Umbellifer)
7	 Lettuce	Radishes, Strawberries, Cucumbers, Chives	Celery, Parsley, Cabbage	Provides ground cover, keeps soil cool and moist	Asteraceae (Composite)
8	 Onions	Corrots, Chamomile, Lettuce, Tomatoes	Beans, Peas, Sage	Deters pests, improves flavor of companions	Amaryllidaceae (Allium)
9	 Garlic	Tomatoes, Roses, Carrots, Lettuce	Peas, Beans, Sage	Repels aphids, beetles, and other pests	Amaryllidaceae (Allium)
10	 Cabbage	Celery, Dill, Chamomile, Onions, Nasturtiums	Strawberries, Tomatoes, Grapes	Reduces pests, improves growth and flavor	Brassicaceae (Mustard)
11	 Broccoli	Beets, Celery, Onions, Dill, Nasturtiums	Tomatoes, Peppers, Strawberries	Repels cabbage worms, improves growth	Brassicaceae (Mustard)
12	 Corn	Beans, Squash, Pumpkin, Sunflowers	Tomatoes, Celery, Peppers	Beans add nitrogen, squash shades soil	Poaceae (Grass)
13	 Radishes	Cucumbers, Beans, Peas, Lettuce	Grapes, Pole Beans	Loosens soil, deters pests, quick crop for space	Brassicaceae (Mustard)
14	 Spinach	Strawberries, Cauliflower, Kale, Onions	Leeks, Strawberries, Beets	Grows in shade, uses soil nutrients efficiently	Amaranthaceae (Amaranth)
15	 Strawberries	Borage, Garlic, Onions, Lettuce, Spinach	Cabbage, Cauliflower, Walnut	Borage attracts pollinators, garlic deters pests	Rosaceae (Rose)
16	 Basil	Tomatoes, Peppers, Asparagus, Oregano	Rue, Sage, Pole Beans	Improves flavor, repels flies and mosquitoes	Lamiaceae (Mint)

PEST DETERRENT FLOWERS		
	Marigold	Repels nematodes, aphids, whiteflies
	Nasturtium	Attracts aphids away from vegetables
	Calendula	Deters pests, attracts beneficial insects
	Borage	Repels tomato hornworms, attracts pollinators
	Chrysanthemum	Natural insect repellent
	Cosmos	Attracts beneficial insects, deters aphids

HELPFUL HERBS		
	Basil	Improves flavor, repels flies and mosquitoes
	Dill	Attracts beneficial insects, aids pollination
	Rosemary	Repels cabbage moths, carrot flies
	Thyme	Deters cabbage worms, encourages growth
	Oregano	Repels pests, antifungal, improves flavor
	Mint	Repels ants, aphids, and other pests
	Chives	Repels aphids, improves growth and flavor

NOTES
