

JANUARY 2027

The image displays a 5x7 grid of colored squares. At the top, there is a color key with seven colored squares corresponding to the columns of the grid below. The colors are: light purple, light orange, light red, light yellow, light blue, teal, and light teal. The grid itself consists of five rows and seven columns of squares. Each square is divided into three horizontal sections. The top section is colored according to the column's color key. The middle section is white. The bottom section is colored according to the row's color key. The colors for the rows are: light orange, light purple, light red, light teal, and light blue.
