

SEASONAL COMPANION PLANTING WORKSHEET

Plan Better. Plant Together. Grow Stronger.

 SEASON: _____	 START DATE: _____	 LAST FROST: _____	 FIRST FROST: _____	 ZONE: _____
---	---	---	---	---

[illegible]

COMMON COMPANION TIPS

DIVERSE PLANTING

Plant a variety of crops, herbs, and flowers to attract beneficial insects and improve resilience.

NATURAL PEST CONTROL

Use companion plants like marigold, nasturtium, or basil to deter pests and protect your crops.

NUTRIENT SUPPORT

Pair heavy feeders with nitrogen-fixers (like beans or peas) to improve soil fertility.

MAXIMIZE SPACE

Combine plants with different root depths and growth habits to make the most of your garden space.

HERB POWER

Herbs like basil, dill, rosemary, and thyme can enhance growth and flavor of nearby plants.

OBSERVE & ADAPT

Every garden is unique. Take notes, observe results, and adjust your plan each season.
