TO DO

A handwriting practice sheet featuring five rows of three-lined guides. Each row consists of a solid top line, a dashed middle line, and a solid bottom line. To the left of each row is a small square box, likely for writing the letter 'a' as a starting point for practice. The sheet is designed to help children learn proper letter height and placement on lined paper.

cow

hen

NOTES

A dot plot showing the distribution of scores for the 'score' variable. The x-axis represents the score value, ranging from 0 to 100. The y-axis represents the frequency of each score. The plot shows a distribution that is roughly bell-shaped, centered around a score of 50. The highest frequency is for a score of 50, with approximately 15 dots. The frequency decreases as the score moves away from 50 in both directions.
